

BIOGRAPHY

UK House DJ & Producer Henry Hacking continues to build momentum through his versatility within House music.

His love for all styles of House music has seen him become a firm favourite not only across the super-clubs, but also the more underground hangouts, headlining at a number of the world's best clubs, including Sky Garden (Bali), Galame (China), Ce La Vi (Singapore) and Ministry of Sound (London), plus Ibiza super brand Pukka Up for their seasonal events 'WNDRLND' at Eden and 'House In Paradise' at O-Beach.

Within the world of production, Henry has amassed over 10 million streams, with releases supported everywhere, including national radio from BBC Radio 1 and Kiss FM, significant TV syncs including ITV's Love Island, and BBC's 'Little Mix - The Search', plus across the global dancefloors thanks to the likes of James Hype, Claptone and David Guetta.

His releases have seen him team up through collaborations and remixes with a variety of iconic names including David Penn, ATFC, Inaya Day, Richard Earnshaw and Ron Carroll, which helped him achieve 3 UK club chart number 1s as well as a Traxsource number 1.

The launch of his own record label 'Selects' in 2023 was a natural progression and has helped secure a much more frequent release schedule to continue the hype train.

Be it Tech, Groove or straight fire house, the journey continues for him on all fronts....
